Project Demo Planning

Date	25 September 2026
Team ID	SWTID-2026-4307
Project Name	AI Weather Wise API
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the AI Weather Wise API effectively, covering the project overview, problem statement, key features, live API demonstration, and responsibilities of each team member in a clear and organized manner.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce AI Weather Wise API and explain the weather-information problem.	1	Bharkavi
2	Solution Overview	Explain objectives, features, API modules, and technology stack.	1	Aswini
3	API Authentication Demo	Demonstrate Register/Login API and JWT-based authentication.	1	Bharathi
4	Weather & AI Demo	Demonstrate Weather API, weather summary, and AI-based recommendations.	2	Gopika
5	Output & Benefits	Show final API response and explain benefits of the system.	1	Bharkavi
6	Q&A Session	Answer questions and clarify project implementation.	1	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly introduce the project and the need for intelligent weather information.
2	Solution Overview	Explain the proposed API, modules, technologies, and architecture.
3	Live Feature Demonstration	Run Register/Login, Weather, Weather Summary, and Recommended APIs using Thunder
4	Q&A Session	Respond to questions and summarize the project outcome.

Project Demo Key Points

• **Project:** AI Weather Wise API – Deliver intelligent weather forecasts and insights.

• **Core APIs:** Register API, Login API, Weather API, Weather Summary API, Recommended API.

• **Demo Tool:** Thunder Client.

• **Expected Result:** Secure API access with real-time weather information, AI-generated weather summary, and weather-based recommendations.
